

TO WHOMSOEVER CONCERNED

Cybermarine Knowledge Systems Pvt. Ltd/Cybermarine Technologies Pte Ltd. a premier design and Engineering consultancy group in Singapore & India has been providing value added services in the area of structural design and engineering to **ABAN SINGAPORE PTE. LTD.** since year 2006 and their work quality meets and normally exceeds the project requirement. We are fully satisfied with their professionalism and quality of their work.

The project list below is indicative of some of the structural design and engineering project work successfully executed by them within the agreed time frame. Their work quality and reports are well trusted by regulatory agencies and rarely require revisit of the work.

1. Raw water Tower- Tahara
2. Aban Ice – Piping drawings
3. Burner Boom arrangement
4. BOP Lifting and Handling arrangement
5. Trolley Beam Design
6. CTU platform Design
7. Slurification package Installation
8. Geoservices package Installation
9. Deepwell Pump Installation
10. Rig Positioning & Anchor Pattern

I wish them well in future and hope that for future projects, their professionalism and quality workmanship will remain at same levels if not bettered.

Deepak Chopra (VP - Operations)
